APPLICATION FOR PERMIT

To Construct and/or Connect a Private Water Line to the Public Water System

Service Address: Date:

Owner/Applicant: Connection Size: inch

☐ Residential ☐ Other; Fire Sprinkler Line ☐
☐ Commercial
☐ Industrial Type of Business: Private Hydrants:

I petition the Board of Water and Sewer Commissioners to allow me to connect to the public water system. I have contracted with **[Type name of contractor here]** (licensed contractor) to complete this work and authorize this application in my name by said contractor. I agree to comply with all lawful regulations, present and future, as set forth by said Board for the connection to and the use of the public water system, which I have read and understand.

Signature of Owner/Applicant Date

This permit is granted to the following restrictions and conditions:

- **Water Entrance/Connection Fee = , to be paid in full before work begins.**
- **Owner/Applicant will be liable for all expenses incurred for installation including, but not limited to, service materials, excavation costs, permit fees, and road repairs.**
- Owner/Applicant and/or his agent shall agree to obtain all applicable permits such as a Dig-Safe Permit, Highway Cross/Alter Permit, Plumbing Permit, etc.
- No connection will be made to any existing water main unless a perpendicular connection to said main can be achieved and a static pressure of 35 psi can be maintained.
- The new service line shall be constructed of Type K soft copper tubing for services of 1 inch through 2 inches of diameter. With prior approval, 200 psi, copper tube size (CTS) polyethylene tubing may be substituted.
- Cement lined, bituminous coated, Class 52 Ductile Iron pipe with Tyton Joints shall be used for services of 4 inches and larger.
- Owner/Applicant and/or his agent shall agree to abide by all directives of the MW&SD.
- All buildings or facilities connected to the Public Water System shall be subject to a cross connection survey on a regular basis at the discretion of the MW&SD.
- Other restrictions may apply depending on the type of facility.

I certify that this work has been completed by me in accordance with all current applicable regulations.

Signature of Contractor Date Approved/Inspected by
